

CHANGE™ GASKET

Engineered like
nothing else.
To perform like
nothing else.
What a Change™.

change™

When we invented the spiral wound gasket in 1912 there was nothing like it. 100 years of innovation later, we introduce the Change™ gasket. Again, there's nothing like it.

Incredibly robust and resilient, the metal-wound Change™ heat exchanger gasket is designed to deliver the most dynamic seal ever.

The Change™ gasket is manufactured with proprietary equipment, using a 5-times thicker metal spiral and a unique laser welding process that penetrates completely through the winding, so it requires no inner or outer ring and is easy to handle and install as a double-jacketed gasket. Best of all, it's proven to perform without fail at least 60% longer than any other heat exchanger gasket – spiral wound, double jacketed, corrugated or kammprofile.

Benefits

- Excellent compression and recovery
- High performance in thermal cycle applications
- Robust and versatile design
- Fire-safe (API 6FB)

Gasket Installation Services are available via our team of Integrity Engineers who will assure Leak Free start up.

THE CHANGE™ GASKET. UNIQUELY MANUFACTURED.

Shape

- Unique wire profile
- 304, 316L & other materials
- Develops a uniquely solid gasket

Laser welded

- Higher unit adhesion
- Pin point accuracy
- Solid construction
